Handigas

Harness the productive power of a really hot choice

Afrox Handigas is the LPGas that provides a complete solution in a wide range of energy applications. Stringent Afrox operating standards and filling procedures ensure that customers maximise their use of gas fuelled applications.

Choose the Handi solution that gives capital equipment economy, clean burning efficiency, cost flexibility and operational effectiveness. Benefit from quiet, reliable and versatile operation.

Afrox Handigas provides instant, effective heat energy just about anywhere you can imagine and is at work in commerce, industry, agriculture, hospitality applications, the home, bush hideaways and at leisure times.

The energy to go where the need takes it

Afrox Handigas is the effective energy that delivers to all kinds of industrial, commercial, hospitality, home and leisure spaces, including:

Bushlodges, canteens, casinos, ceramic plants, clinics, clubs, clusters, construction sites, crematoriums, dams, developments, fabricators, factories, farms, fireplaces, foundries, gameparks, glassworks, golfclubs, gyms, hideaways, homes, hospitals, hotels, housing developments, gardens, incinerators, incubators, kitchens, malls, nurseries, nursing homes, office parks, packaging plants, petrol stations, pipelines, plantations, plastics plants, power stations, printing works, refineries, resorts, restaurants, retirement villages, roadworks, shebeens, shopping centres, sports clubs, takeaways, taverns, tents, tileworks, townhouses, tunnel farms, trails, transporters, spas, workshops, and, even the zoo.

The energy to work in every way possible

Afrox Handigas is the effective energy that is reliably at work in all kinds of industrial, commercial, hospitality, home and leisure applications, including:

Air conditioners, autoclaves, branding irons, bakeries, brooders, chemical baths, cookers, cleaners, curing plants, decorative flares, dehorners, diptanks, drying tunnels, flame weeders, farrows, fireplaces, flares, forklifts, friers, fridges, freezers, furnaces, generators, geysers, grain driers, grillers, heaters, hothouses, incinerators, incubators, in-line dip tanks, in-line driers, kilns, lanterns, laundries, lighting, nut roasters, ovens, paint booths, print driers, roadmarkings, steam plants, tumble driers, vegetable tunnels, washing machines, waterproofing, woks and the works.

The energy that works to deliver the goods

Afrox Handigas is the effective energy that produces the goods in all kinds of industrial, commercial, hospitality, home and leisure applications, including:
